I was pleased to find out that my approach to teaching is very similar to what you propose. The major difference I noticed was the language that you use

With total gratitude.

(over)

After attending this I realize how important the correct language is to the success of the students. Small changes in the words that you use make huge impacts.

I now know the appropriate language to get accomplished what I envision. I now have to practice this. I am looking forward to doing this the next school year.
